PHD CHAMBER OF COMMERCE AND INDUSTRY

Overview

The 2nd National Summit on Sustainability, 2018 to be hosted by PHD Chamber of Commerce & Industry aims to deliver ideas, strategies and solutions for a sustainable business. It will further enhance awareness on business models, tools, technologies, solutions and approaches followed by the global and regional leaders across industry verticals towards building sustainable economies. Sustainable Development Goals (SDGs) are the means to achieve the aforesaid goals along with the improvement of the socio-economic status of downtrodden people. However, accomplishment of these Goals may not be possible alone by Government drives alone, it needs high level of collaboration between Government, corporate and civil society.

In this edition, the focus of the summit will be on two Sustainability Goals mainly SDG 3 (Health and well being) and SDG 11 (Sustainable cities and communities). These Goals are the opportunity for corporates to discover new and innovative technologies to address the same. In this regime, corporate social responsibility has immense potential to drive the SDGs. This would assist companies who are contemplating on adoption of 'Sustainability Initiatives' through actual examples/case studies of companies that have commenced adoption of sustainability philosophy and in a way that justifies the investment.

Given the immediate need for action, as in the Agenda 2030 for Sustainable Development, and the challenging time frame for achieving these goals, CSR can be an effective catalyst for action.

*Unleashing the
potential of
SDGs
to reconnect
business
with CSR*

Objectives

- To engage in a discourse that empowers companies to take action and adopt sustainable growth models
- To map out the SDGs with schedule VII of the CSR activities of The Companies Act, 2013
- To brainstorm a way forward to integrate SDGs into core business values, and to give an opportunity to network and build mutually enriching strategic relationships with various stakeholders and key partners
- To get the insights and reflections about the challenges faced by corporate and stakeholders in relation to Sustainability
- To help in the creation of positive framework to advance the role of business in social, economic and environment sphere
- To create a forum where business leaders, market regulators, innovators and government can explore and identify the commercial opportunities in the emerging green economy as well as the challenges in achieving the sustainable goals.
- To discuss and understand the impact of business on critical sustainability issues.

Delegate Profile

- CSR and Sustainability experts from Public sector undertakings (PSUs)
- Business leaders, Regulators, Directors of Companies to gain valuable insights into emerging trends and issues concerning Business sustainability
- CSR Heads, CSR committee members seeking creative and innovative models in relation to Business sustainability.
- Compliance Managers
- UN agencies
- Civil society groups, Development sector organizations to explore partnership opportunities with industries
- CSR consultants for networking and partnerships
- Academicians and Researchers doing projects/study in Sustainability and CSR

Key Takeaways

- Inspirational Address by eminent speakers on best CSR Practices & Sustainability
- Opportunity to secure key partnership with Stakeholders
- Understanding of how Sustainable Development Goals (SDGs) can link with CSR activities
- Discover how company values can be enhanced through Good CSR & Sustainability
- High quality of Case Studies and discussions

2nd NATIONAL SUMMIT ON SUSTAINABILITY

September 7, 2018, The Lalit, New Delhi

Agenda

Registration: 9:00 a.m.-10 a.m.

Keynote Session: 10 a.m.-11:30 a.m.
**Thought Leadership on Public-Private Sector
Partnerships in achieving SDGs**

SDGs provide an opportunity for businesses to engage in development and align SDGs with their core competencies and interests. Public Private Partnerships are central to operationalizing these approaches; such partnerships can leverage the core competencies of each stakeholder. Developing a public-private planning mechanism to ensure India achieves the SDGs in the time bound manner is critical.

Power Panel I: 11:45 a.m. -1:00 p.m.
Aligning SDG 11 for designing Cities as development tool

Targets of Goal 11 cover the traditional concerns of housing, slums and transportation and more. Yet issues related to environment, climate, waste management, resilience, and radiation management needs to be dealt swiftly. Innovative technologies can play a catalytic role in creation of Smart and Sustainable Cities. Sustainable development cannot be achieved without significantly transforming the way we build and manage our urban spaces.

Panel Discussion II: 1: p.m.-2:15 p.m.
**Industry stakes in achieving SDG 3 Targets-
(Good Health and Well-Being)**

Strengthening the capacity of all States for early warning, risk reduction and management of health risks needs perfect integration of CSR activities with SDG 3. The scope of SDG 3 provides immense opportunity to bring health and wellness at the centre of economic growth. For India to progress towards sustainable development in health, businesses have immense potential to leverage their CSR activities in promotive and preventive healthcare.

Networking Lunch: 2:15 p.m. onwards
